PROFILE SUMMARY

Dedicated Full Stack Developer and Cyber Security enthusiast with practical expertise in Spring Boot and the MERN stack. Developed comprehensive projects showcasing proficiency in both front-end and back-end technologies. Ready to embark on my professional journey with a proactive and eager-to-learn attitude.

WORK EXPERIENCE

HACKATHON

- Successfully participated in three hackathons, including two academic hackathons utilizing the MERN stack and Spring Boot, showcasing problem-solving and full-stack development skills.
- Represented at the national level in the Smart India Hackathon (SIH), demonstrating innovative thinking and real-world problem-solving under time constraints.
- Worked in cross-functional teams to design, develop, and deploy solutions, emphasizing collaboration, creativity, and technical expertise.

AICTE – Virtual Internship

Dec 2022 - Feb 2023

- Developed foundational skills in deploying and managing cloud resources for scalable solutions. Worked with various storage services to handle data securely and efficiently.
- Enhanced understanding of cloud technologies and their applications in real-world scenarios.

PROJECTS EXPERIENCE

- Hotelio – Hotel Management** Jun 2023 - Nov 2023
Developed a hotel booking application with Spring Boot, MySQL, and Bootstrap. The platform includes robust functionalities and an intuitive, user-friendly booking process. It streamlines hotel management and enhances user experience through efficient design and performance.
- Personal Portfolio** Aug 2024
Created a responsive portfolio website using **React** and **Tailwind CSS**. It highlights my projects, certifications, and work in a clean, modern layout. The site is mobile-friendly, offering seamless navigation across devices. Deployed on **Netlify**, ensuring fast and reliable performance.
- FlyAway – Travel** Dec 2022 - May 2023
Developed a travel website using the MERN stack with a seamless user interface and dynamic functionality. The front end is deployed on Netlify, and the back end is hosted on Render. It enables efficient travel planning with a modern, responsive design.
- Spotify Clone** Nov 2024
Developing a Spotify clone web app using the **MERN stack** and **Tailwind CSS**, designed to replicate core Spotify features like user authentication, playlists, and seamless music streaming. The application incorporates a sleek, responsive UI with efficient back-end integration to manage user data and media content. Aiming to provide an immersive and intuitive music experience, the project highlights expertise in full-stack development and modern UI design.

EDUCATION HISTORY

KL University B. Tech in Computer Science and Engineering CGPA: 8.95/10	2021 - Present
Narayana Junior College, Telangana Inter 12 th Percentage: 91.4%	2019 - 2021
Bhashyam High School, Telangana 10 th class CGPA: 8.1/10	2018-2019

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C
Tools and Frameworks: ReactJS, NodeJS, Spring Boot, HTML, CSS, Bootstrap
Databases: MySQL, MongoDB, PostgreSQL
Others: Git, GitHub, Team Player, Strong Communication Skills, Quick and Adaptive

GLOBAL CERTIFICATIONS

AWS Cloud Practitioner – Amazon Web Services	View
Red Hat Certified Enterprise Application Developer – Red Hat EX-183	View

PROFESSIONAL DEVELOPMENT

Currently Learning: Next.js, Tailwind CSS.
