PROFILE SUMMARY

To contribute as a Full Stack Developer and Cybersecurity enthusiast by applying skills in the MERN stack and Spring Boot to deliver efficient applications, improve team outcomes, and support organizational success.

WORK EXPERIENCE

HACKATHON

- Successfully participated in three hackathons, including two academic hackathons utilizing the MERN stack and Spring Boot, showcasing problem-solving and full-stack development skills.
- Represented at the national level in the Smart India Hackathon (SIH), demonstrating innovative thinking and real-world problem-solving under time constraints.
- Worked in cross-functional teams to design, develop, and deploy solutions, emphasizing collaboration, creativity, and technical expertise.

AICTE – Virtual Internship

Dec 2022 - Feb 2023

- Developed foundational skills in deploying and managing cloud resources for scalable solutions. Worked with various storage services to handle data securely and efficiently.
- Enhanced understanding of cloud technologies and their applications in real-world scenarios.

PROJECTS EXPERIENCE

• Hotelio – Hotel Management

Jun 2023 - Nov 2023

Developed a hotel booking application with robust functionalities and an intuitive booking process, streamlining hotel management and enhancing user experience through efficient design and performance.

Technologies and Frameworks Used: Spring Boot, MySQL, Bootstrap

• Personal Portfolio

Aug 2024

Created a responsive portfolio website highlighting projects, certifications, and work in a modern layout. The site is mobile-friendly, ensuring seamless navigation across devices, and deployed on Netlify for fast performance.

Technologies and Frameworks Used: ReactJS, Tailwind CSS

• FlyAway – Travel

Dec 2022 - May 2023

Developed a responsive travel website with dynamic features for efficient planning, deployed on Netlify (front end) and Render (back end). Showcased seamless integration and user-friendly design.

Technologies and Frameworks Used: ReactJS, ExpressJS, MongoDB, CSS

• Spotify Clone

Nov 2024

Built a Spotify clone web app with features like user authentication, playlist management, and music streaming. Designed a responsive, intuitive UI and implemented efficient back-end integration to handle user data and media, highlighting skills in full-stack development and modern UI design.

Technologies and Frameworks Used: ReactJS, ExpressJS, MongoDB, Tailwind CSS.

EDUCATION HISTORY

KL University

2021 - Present

B. Tech in Computer Science and Engineering | CGPA: **8.95/10**

Narayana Junior College, Telangana

2019 - 2021

Inter 12th | Percentage: **91.4%**

Bhashyam High School, Telangana

2018-2019

10th class | CGPA: **8.1/10**

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C

Tools and Frameworks: ReactJS, NodeJS, Spring Boot, HTML, CSS, Bootstrap

Databases: MySQL, MongoDB,

Cloud: AWS

Others: Git, GitHub, Team Player, Strong Communication Skills, Quick and Adaptive

GLOBAL CERTIFICATIONS

AWS Cloud Practitioner – Amazon Web Services
